FOR MENTAL WELLBEING

Wellbeing workshops

May – August 2019

Hello!

Welcome to our summer programme of workshops and group activities.

This term offers new opportunities to meet people, enjoy a hobby or learn something new about yourself and your mental health. Anyone living in Southwark or with a GP in Southwark can take part - you don't need to be referred and you don't need to have a diagnosis.

If you find a workshop or group you'd like to try you can get in touch with us to find out more or to book a place. We're also looking for volunteers to help with this term's programme so if you have an interest in mental health or any of the activities in the brochure then we'd like to hear from you!

SLaM Recovery College Workshops

These workshops are designed for people who would like support with their wellbeing. They provide information and strategies to develop understanding and resilience.

Understanding Personality Disorder

Personality disorder is a phrase used to describe a group of common, long-lasting conditions that affect how people view and manage their emotions and how they relate to other people.

This course explores what is meant by personality disorder in general and how it can affect other aspects of a person's mental and physical health.

We will also discuss specific treatments and how people can help themselves to regain a measure of control in their lives.

What: One-day workshop

When: Tuesday 28th May 10:00am-4:00pm

Where: Ortus Learning Centre

Communication Skills for Resilient Relationships

Please note: this workshop focuses primarily, though not exclusively, on relationships between couples.

Communicating is more than just what we say. It is how we say things and what we understand from what is said to us.

Sometimes it can be difficult to know how to communicate with the people around us, especially when you need to discuss something unpleasant, or there is a power imbalance in the relationship, or you are from different social backgrounds, or the language and terms being used are not familiar to us.

This workshop will explore active listening skills and the barriers which impact on the way we communicate with the aim of reducing misunderstanding & conflict.

What: Half-day workshop

When: Wednesday 10th July 1:30pm-4:30pm

Where: The Ortus Centre

Staying Well & Making Plans: managing the ups and downs

For many people it can feel as if their mental health difficulties are completely beyond their control. Treatment and support from mental health professionals can be helpful but every person with mental health problems can become an expert in their own self-management. Along with mental health difficulties, things like divorce, death of a loved one, losing your job and serious physical illness can affect anyone. Whatever challenges you face, recovery involves finding the personal resourcefulness and resilience to take back control over your life and what happens to you.

This two-week course aims to support people to develop and use personal recovery plans that focus on what keeps you well, how to manage the ups and downs, how to cope in a crisis and what gets you back on track.

This course is for anyone who wishes to learn about planning for a life beyond services.

What: Two week course, one-day workshop each week

When: Tuesday 18th & 25th June 10:00am-4:00pm

Where: The Ortus Centre

Introduction to Mindfulness: a taster session

Please note: attending this course is strongly recommended for students considering enrolling for the following term's five-week 'The Mindful Way to Wellbeing' course.

The aim of this interactive session is to provide an introduction to the principles and practice of mindfulness. The session includes three short, seated meditations.

What: Two hour workshop

When: Tuesday 9th July 2:00am-4:00pm

Where: The Ortus Centre

The Mindful Way to Wellbeing

Please note: this is a highly popular course and priority will be given to students who have previously attended the introductory 'Introduction to Mindfulness workshop.'

This interactive, five-week course gives students an opportunity to learn about mindfulness and begin to develop a personal practice aimed at enhancing wellbeing. Practicing mindfulness enables us to be in the present moment more of the time which can help us notice unhelpful habits of thinking and behaviour and, with practice, respond to difficulty with greater skill.

During each session students learn through taking part in guided meditations and exploring together the experience of doing so through group discussion. Students are encouraged to use guided meditations to practice at home between classes.

You must be able to attend each of the five sessions.

What: 5 week course

When: Tuesday 16th 23rd 30th July 6th & 13th August 2:00pm-4:00pm

Where: The Ortus Centre

Confidence in Social Situations

This course will offer you the opportunity to identify situations in your own life where you would like to be more confident. You will then be able to explore and consider ways of managing challenging social situations in a warm and supportive environment.

Topics covered will include understanding confidence, how our behaviour and thinking can affect confidence, the role of body language, and practical strategies to be confident in social situations. This course doesn't involve role play unless students want it to. It instead focuses on self-awareness and group discussion to build up confidence and share experiences to feel less isolated. By the end of the first session, students will be able to set a personal goal around increasing their confidence.

The second workshop will conclude with a group visit to the Dragon Cafe.

What: One-day workshop followed by a half-day workshop

When: Monday 15th July 10:00am-4:00pm and Monday 22nd July 12:30-5:00pm

Where: Ortus Learning Centre

Mental Health: Disclosure and Your Rights at Work

The aim of this workshop is to help participants to gain a better understanding of their rights when deciding to make disclosures about their own mental health condition to employers.

This is an area that people often feel very confused about and it is hoped by the end of the workshop participants will feel more equipped to make an informed choice as to whether to disclose their condition or not.

The workshop will cover the advantages and the disadvantages of disclosure, how to disclose, and the role of the Equality Act (2010) and how it can protect the individual if they choose to disclose.

What: 1 day workshop

When: Thursday 15th August, 10:00am - 3:00pm

Where: Ortus Learning Centre
