FOR MENTAL WELLBEING

SWiFT

Supporting Warwickshire in Forward Thinking

Starting 1 September 2022, SWiFT is a new service that will be run by the Together Warwickshire team to provide support for people with disabilities who may not require full floating housing support, but would still benefit from short-term help and guidance on their housing situations.

SWiFT will be able to provide guidance on concerns like:

- How to apply for the local housing register
- What to do when served an eviction notice
- How to follow personal housing plans
- Grant applications for white goods and furniture
- How to improve housing banding where possible
- How to approach the council if homeless or at risk of homelessness....and more.

Our Referral Coordinators will offer short-term support via telephone, email or text, to advise clients on how to approach their immediate needs.

The SWiFT Service will:

- Enable clients to receive support faster
- Empower clients to complete small goals themselves
- Provide access to relevant information and guidance in a timely manner
- Fill in the gaps and provide a service to those who may otherwise not receive it.

For enquiries, please contact us on:
