

FLOATING HOUSING SUPPORT

Warwickshire Housing Related Support

Together's Floating Support provides support to people with a range of disabilities who would benefit from targeted, 1-to-1 housing related support to set up, understand, manage and maintain their tenancies and prevent a risk of eviction and homelessness.

Our aim is to empower people so that they can independently maintain their tenancies once our support comes to an end, through person-centred, self-directed support.

Our team can provide support with the following...

- **Support to stay in your own home**
- **Support towards living in your own home**
- **Learning how to set up and manage bills**
- **Support to access volunteering, employment, and education opportunities**
- **Budgeting and income maximisation**
- **Accessing the local community**
- **Support to understand and identify risks within your home....and more.**

We work alongside individuals as they overcome obstacles and move forward with their housing-related goals. Our Senior Support Workers operate throughout Warwickshire and can offer telephone, email, and face-to face support sessions.
